What's New In?

This application was designed to help people who have always had the same wallpaper on their computer and wanted to change it automatically. You can define the wallpaper frequency as well as how the new wallpaper is shown on the screen. If you're having problems downloading anything, please try a different browser. Supported File Formats: JPG, GIF, PNG, PCX, and TGA files. Requirements: -.NET Framework 3.5 - Windows 7, Vista, or XP - Compatible file types: .JPG, .GIF, .PNG, .PCX, and .TGA Supports Windows: - Windows 7, Vista, or XP - System Requirements: - Windows 7, Vista, or XP - 1GB of RAM - 700 MB of hard disk space - Internet connection for software updates When you're finished, click the blue "Done" button to close the dialog. After that, your new wallpaper will start to be applied. Try these settings: - Activate the "Modify Windows Wallpaper Settings" option, and set the wallpaper image to your new choice. - Activating the "Auto-Start Wallpaper Changer on Startup" option will cause Dazzo's Wallpaper Changer to become active automatically when you're on your PC. - Activate the "Allow Dazzo's Wallpaper Changer to start hidden, no intrusive displays" option to make the Wallpaper Changer less noticeable on your desktop. Other features: - Display only the current wallpaper on the desktop and hide the other windows. - Automatic re-import of images on the Desktop. - No special folder is required for the wallpaper change function. - It can be configured to always auto-rotate the desktop wallpaper. - Update the wallpaper automatically as often as you want. - You can manually set the wallpaper. - Can be asked to auto-launch on every Windows startup until further notice. - Can be asked to run in the background and remain non-intrusive. - Does not show the desktop notification tray icon. - Can be configured to automatically launch Dazzo's Wallpaper Changer at every Windows

startup until further notice. - Allows monitoring of folders and periodic updates of the background picture. - Can be configured to activate Dazzo's Wallpaper Changer automatically when you start your computer or if you're using a USB connection. - It can be configured to automatically start Dazzo's Wallpaper Changer as a hidden process
