So, was Adobe successful in providing a stable, capable update for its long-time users? Is Lightroom 5 likely to attract new customers, who previously avoided what may be considered a Camera RAW plugin dressed in a suit of extra functionality? In this article, I will review the latest version of Lightroom and discuss its newly gained features in detail. I will also talk about what could have been better in Lightroom 5 so as to, by the end of the article, help you make up your mind whether purchasing or upgrading to this popular piece of software is beneficial to you. The idea is that you can tap the screen with your finger or Apple Pencil to draw lines, curves, shapes, basic shapes and shapes. Gradients can also be used to create visually stunning images. The lines can be made of any length and filled in any color. Curves can be curved over certain areas of an image. In the upper-left corner of the screen, a Histogram displays shades of color intensity in the image. Want to make your whole portfolio look great? Photoshop can do that in one click. Plus it's easy to crop, straighten and resize images. While the number of editing tools seems overwhelming, you can adjust the settings of any image with just a few taps. The Microsoft Surface Pro 2 is a great device, there is no doubt about that. You get what you pay for, and that's a lot of functionality. You also need to pay a lot for that functionality. Pricing for the Surface Pro 2 includes 2GB of RAM, 256GB of SSD storage, and no RAM card. It runs Windows 10 Pro, and most of the software you need works well. Citing the lack of a dedicated GPU, VentureBeat notes that the Surface Pro 2 is slower than the Surface and Surface 2.

What It Does: It's no surprise that the Smart Object is a great way to enhance your images. It is similar to a video object or an object in video editing software. The only downside is – in my opinion – that it is not yet available on Adobe Lightroom for mobile. However, you can use this feature in Photoshop because it is part of a newer PSD format. **What It Does:** You've probably seen a hyper-realistic portrait, maybe even in a social media post. That's because the HDR Photo tool lets you create that. It creates a 1.2MP image of your actual HDR image. By using the Curves adjustment layer you can really bring out the details of your image. This tool is an awesome way to use emphasize the eyes and make them pop.
