

## Bird Vip Ventilator Service Manual

Bird VIP First Service Manual Free Download. Puritan Bennett 840B Service Manual. From the Desk of Bird Vip Support. 25 May 2013. Ventilator|Advents. A customer service manual is a document produced as part of the. Machine Service Bulletin Manuals Bird Ventilator.Q: JSON parsing in iOS Here is my JSON.

```
{"success":true,"object":[{"id":"1","amount":"10000"}, {"id":"2","amount":"10000"}, {"id":"3","amount":"10000"}, {"id":"4","amount":"10000"}, {"id":"5","amount":"10","isPayable":"true"}, {"id":"6","amount":"10000"}, {"id":"7","amount":"10000"}]}
```

I want to parse this JSON and want to fetch id of the newly added one object. I can do it in online website but i need it in my iOS app, Please help me to parse this json in iOS. A: In Objective-C: NSError \*e; NSDictionary \*dictionary = [NSJSONSerialization JSONObjectWithData:data options:NSJSONReadingMutableLeaves error:&e]; NSArray \*array = [dictionary objectForKey:@"object"]; int id; if(array) { for (int i = 0; i < array.count; i++) { NSDictionary \*object = [array objectAtIndex:i]; id = [object objectForKey:@"id"]; } } You can also do it in Swift. Example: if let d = try NSJSONSerialization.JSONObjectWithData(data, options: []) as? [NSDictionary] { if let array = d["object"] as? [[String:AnyObject]] { for(var i = 0; i < array.count; i++) { let object = array[i] as? [String:AnyObject] let id = object?["id"] as? Int } } }
